Useful idiot

From Wikipedia, the free encyclopedia

For other uses, see [Useful idiot \(disambiguation\)](#).

In [political jargon](#), **useful idiot** is a [pejorative](#) term used to describe people perceived as propagandists for a cause whose goals they do not understand, who are used cynically by the leaders of the cause.

The term has been used to describe [Soviet sympathizers](#) in Western countries. The implication was that although the people in question naïvely thought of themselves as an ally of the Soviet Union, they were actually held in contempt and were being cynically used. The use of the term in political discourse has since been extended to other propagandists, especially those who are seen to unwittingly support a malignant cause which they naively believe to be a force for good.^[1]

Despite often being attributed to [Lenin](#),^{[2][3][4]} in 1987, Grant Harris, senior reference librarian at the [Library of Congress](#), declared that "We have not been able to identify this phrase among [Lenin's] published works."^{[5][6]}

A [New York Times](#) article from 1948, on contemporary Italian politics, documented usage of the term in an article from the social-democratic Italian paper *L'Umanita*.^[7]

A 2010 [BBC](#) radio documentary titled *Useful Idiots* listed among "useful idiots" of [Joseph Stalin](#) several prominent British writers including [H. G. Wells](#) and [Doris Lessing](#), the Irish writer [George Bernard Shaw](#), the American journalist [Walter Duranty](#) and the singer [Paul Robeson](#).^[8]
